JOB ANNOUNCEMENT
Pre-Doc RESEARCHER/RESEARCH ANALYST

JOB RESPONSIBILITIES

The successful candidate will support faculty research in a number of areas, including real estate, urban economics and household finance. Job responsibilities include performing a variety of statistical and econometric analyses, writing research reports, collecting and maintaining databases, and providing research-related programming support. Independent thinking, a thorough understanding of economics, and self-motivation are highly valued in performing these functions.

QUALIFICATIONS

BA/BS in Economics, Statistics, or another closely related discipline; Master’s degree welcome but not required. Previous experience as a research analyst or pursuing independent research is preferred. High achievement in economics or finance courses; this provides the necessary background to understand the faculty research projects that will be supported by the Research Analyst. Clear evidence of strong skills in computer programming and statistics. Skill with some statistical/regression package (e.g., Stata, R, etc.) and/or other relevant programming package (e.g., Matlab, ARCGis, etc.) required. Some familiarity with at least one of the major AI platforms (e.g., Bard, ChatGPT, etc.).

We anticipate that the successful candidate would work at the Center for two years, before going on to graduate programs or careers in economics, finance, real estate, or related disciplines. Recent Research Analysts have been admitted to the Berkeley, Harvard, LSE, Michigan, Penn, Stanford, and Yale doctoral programs in Economics, as well as MIT and Penn Statistics. This is a full-time position, starting in the summer of 2024. The annual compensation is $58,000-$60,000 plus benefits.

HOW TO APPLY

Please find the link for the job posting here. (Reference number: JR00082351)

In order for the application to be considered complete, please submit:

1. a brief cover letter, explaining your interest in the position,
2. a resume, and
3. an academic transcript.

ABOUT THE CENTER

The Samuel Zell and Robert Lurie Real Estate Center was established in 1983 by the Wharton School of the University of Pennsylvania to promote excellence in real estate education and research. The Center is home to a distinguished research group, and is recognized as a leader in real estate, urban economics, finance, law, and design. Researchers at the Zell/ Lurie Center use state-of-the-art tools in applied economics and econometrics. The Wharton School is a world-class business school, a place where faculty conduct cutting-edge research and teach undergraduates and MBAs who will be future business leaders.

Penn adheres to a policy that prohibits discrimination on the basis of race, color, sex, sexual orientation, gender identity, religion, creed, national or ethnic origin, citizenship status, age, disability, veteran status, or any other legally protected class.
